

Master's thesis

University of
Zurich^{UZH}

OPPORTUNITY

Would you like to study the development of vocal and nonvocal communication in **common marmosets**?

Join our **Evolutionary Cognition** group for a **1-year Master's thesis!**

What to expect:

- Hands-on experience in **behavioural research** with non-human primates
- Learn about systematic data annotation, observational methods, and basics of acoustic analysis
- Apply the scientific method and explore you own **research questions**

Start between **September and October 2026.**

Please submit your application to:
PhD candidate Elena Belli
